

Noble Earth Technologies
Anti-Slip Treatment

CAUTION - POISON
KEEP OUT OF REACH OF CHILDREN
CONTAINS 3g/L AMMONIUM BIFLUORIDE

Noble Earth Technologies 'Anti-Slip Treatment' is effective on the glazed ceramic and vitrified tiles, polished granite, terrazzo, marble, quarry tile, concrete, slate, porcelain bath tubs and several other hard floor surfaces. Noble Earth Technologies 'Anti-Slip Treatment' is not a coating, therefore, will not delaminate, yellow or wear off, as other coatings may do. One application will last for up to 5 years even under high traffic.

DIRECTIONS FOR USE: Please see application manual. To obtain application manual please consult your Noble Earth Technologies Representative. Depending on the application the treatment may slightly alter the appearance of the surface.

For further application details and technical information and uses please consult with the Noble Earth Technologies technical department.

SAFETY DIRECTIONS: Obtain a supply of calcium gluconate gel. May cause burns, which are not likely to be immediately painful or visible. Avoid contact with eyes. Wear eye protection when mixing or using. Contact with eyes even for short periods can cause blindness. Avoid contact with skin. Wear protective gloves when mixing or using. Wash gloves thoroughly, immediately after use. Avoid breathing vapour or spray mist. Safe when wet.

FIRST AID: If poisoning occurs contact a Poisons Information Centre (phone 13 11 26 from anywhere in Australia) or a doctor. If swallowed and more than 15 minutes away from a hospital, INDUCE vomiting, preferably using Ipecac Syrup APF. Avoid ingesting alcohol. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open, flush with water for at least 15 minutes and see a doctor.
