

Noble Earth Technologies
Chef Gel Pal

CAUTION - POISON
KEEP OUT OF REACH OF CHILDREN
CONTAINS 3g/L SODIUM HYDROXIDE

CORROSIVE LIQUID
N.O.S, UN 1760

Noble Earth Technologies 'Chef Gel Pal' has been especially formulated to clean grill plates and ovens.

DIRECTIONS FOR USE:

Grill Plates – For badly soiled grill plates, dilute 1 part of Noble Earth Technologies 'Chef Gel Pal' with 5 parts of water. Pre-heat plates to approximately 170°C and pour diluted solution onto the plates. Rinse off by flooding with water until the water remains clear. Dry and then lightly oil the plate for further use.

Ovens – Dilute Noble Earth Technologies 'Chef Gel Pal' with 8 parts of water. Pre-heat oven to 180°C and apply liberal amounts of diluted 'Chef Gel Pal' using a sprayer with a straight jet or a dish and rag. Spray on walls and doors then rinse off with a clean wet cloth. If a dish and rag method is employed always wear protective gloves.

For further application details and technical information and uses please consult with the Noble Earth Technologies technical department.

SAFETY DIRECTIONS: Do NOT use on aluminium filters and equipment etc. Corrosive. May produce severe burns. Attacks skins and eyes. Wear eye protection and protective gloves when mixing or using.

FIRST AID: If poisoning occurs, contact a Poisons Information Centre (phone 13 11 26 from anywhere in Australia) or a doctor. If swallowed, do NOT induce vomiting. If in eyes, hold eyelids apart and flush eye continuously with running water. Continue flushing until advised by the Poisons Information Centre or a doctor, or for at least 15 minutes. If skin or hair contact occurs,
