Citrus Lift Multi-Degreaser

CAUTION - POISON
KEEP OUT OF REACH OF CHILDREN
CONTAINS D-LIMONENE 100% W/W

TERPENE
HYDROCARBONS,
N.O.S. UN 2319

Noble Earth Technologies 'Citrus Lift Multi-Degreaser' is a natural solvent, an extract from orange peel. It contains low levels of impurity with low odour residue and is mild on the skin. 'Citrus Lift Multi-Degreaser' is a heavy duty capable of removing tar, heavy wet greases, heavy oil staining and all waxes and inks used in most industries. 'Citrus Lift Multi-Degreaser' is a solubilising solvent for sticky and wax residues, e.g. Latex-based rubber, carpet adhesives, sticky black labels, printers ink, chewing gum on non-porous surfaces and carpets. Other applications are generators, thermostats, switchers, timers and telephone switching equipment of the mechanical type – it will leave no residue, although it evaporates slowly.

DIRECTIONS FOR USE: Noble Earth Technologies 'Citrus Lift Multi-Degreaser' is an excellent **Quick Break Degreaser** that is suitable for use in all Quick Break Applications, such as Plate Separators and other types of grease and water traps. Spray or brush 'Citrus Lift Multi-Degreaser' onto the surface, leave and allow it to penetrate the soiled area and then rinse off with water (hot or cold).

Noble Earth Technologies 'Citrus Lift Multi-Degreaser' is also an ideal **Quick Electrical Solvent** that can be used to dewater and degrease all electrical equipment safely. 'Citrus Lift Multi-Degreaser' has been tested to AS 1716 to have a Dielectric strength of 8kv. 'Citrus Lift Multi-Degreaser' has been tested and found compatible with most varnishes and epoxies used in the electrical industry. As with all degreasers, a test sample should be tried on an inconspicuous section to assess surface compatibility. Spray or brush the area with 'Citrus Lift Multi-Degreaser' and allow drying, a low pressure hose may be used to assist the drying process. Do NOT start the electrical equipment until 'Citrus Lift Multi-Degreaser' has evaporated.

For further application details and technical information and uses please consult with the Noble Earth Technologies technical department.

SAFETY DIRECTIONS: Read MSDS before working this product. Do NOT use near naked flames. Use in well ventilated areas with appropriate safety equipment.

FIRST AID: If poisoning occurs, contact a Poisons Information Centre (phone 13 11 26 from anywhere in Australia) or a doctor. If swallowed, do NOT induce vomiting. Give a glass of water. If in eyes, wash out material from eyes with running water immediately. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. If irritation persists, seek medical advice.
