## Insect – Zone Shield

**POISON**  
**KEEP OUT OF REACH OF CHILDREN**  
**READ SAFETY DIRECTIONS BEFORE OPENING OR USING**

Ready to use residual insecticide  
Active Constituents: 3.5g/L Permethrin 25:75, 1.2g/L Tetramethrin  
Solvent: 795g/L Liquid Hydrocarbon  
GROUP 3A INSECTICIDE

**Controls flies, cockroaches, silverfish, fleas carpet beetles, moths, ants and spiders**

### **DIRECTIONS FOR USE:**

Situation	Pest	Rate	Critical Comments
Industrial, commercial and domestic premises	Flies, cockroaches, silverfish, fleas, carpet beetles, moths, ants and spiders	25mL/m <sup>2</sup>	Apply spray directly to surfaces with spray applicator. Spray inert surfaces such as timber, vinyl, laminex, masonry– i.e. Walls, ceilings, foundations, pathways, etc. The residual effect will last for a period of three months, then repeat treatment if insects are still alive. <b>READY TO USE SPRAY. DO NOT DILUTE.</b>

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

### **General instructions:**

This product is a residual, ready to use insecticide that kills insects on contact and by residual action. Apply to areas where pests are seen and to other areas which may provide harbourages. After use wash and rinse spray applicator thoroughly. Do not apply to clothing or fabrics.

### **Insecticide Resistance Warning**

For insecticide resistance management Insect-Zone Shield is a Group 3A Insecticide. Some naturally-occurring insect biotypes resistant to insect-Zone shield and other Group 3A insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population, if Insect-zone shield or other Group 3A insecticides are used repeatedly. The effectiveness of the Insect-zone shield on resistant individuals could be significantly reduced. Since occurrence of resistance individuals is difficult to detect prior to use, Noble Earth Technologies accepts no liability for any losses that may result from the failure of Insect-zone shield to control resistant insects.

Insect-zone shield may be subject to specific resistance management strategies. For further information contact your local supplier, Noble Earth Technologies representative or local agricultural department agronomist.

**PRECAUTION: DO NOT SPRAY DIRECTLY ON HUMANS. DO NOT SPRAY INTO AIR. DO NOT USE** where product may contact food, food utensils, or places where food is prepared or stored.

### **PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:**

Dangerous to fish, Remove or cover fish tanks before use. **DO NOT** contaminate streams, rivers or waterways with the chemical or used containers.

**STORAGE AND DISPOSAL:** Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight. Triple or preferably pressure rinse containers before disposal. Dispose

of rinsing in a disposable pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. If recycling, replace cap and return containers to recycler or designated collection point. If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit. Empty containers and product should not be burnt.

**FIRST AID:** If poisoning occurs, contact a Doctor or Poisons Information Centre (phone 13 1126 from anywhere in Australia) at once. If swallowed, do NOT induce vomiting. Give a glass of water

**SAFETY DIRECTIONS:** May irritate skin. Avoid contact with eyes and skin. Wash hands after use.

Contents: 25 litres
